

THE BLAIRMORE ENTERPRISE

VOL. XXVI, NO. 23.

THE BLAIRMORE ENTERPRISE THURSDAY, JUNE 6, 1935.

\$2.00 PER ANNUM

BIG EVENTS PLANNED FOR JULY 1 IN BLAIRMORE

The Crow's Nest Pass appears to be the scene of big events in southern Alberta, and, judging from reports, Blairmore will be the big drawing card, as usual, on July 1st.

Strong committees have been chosen by the Blairmore Amateur Athletic Association, sponsoring the event, and quite a number of meetings have already been held in connection with plans and programme.

R. W. H. Pinkney is president; S. McDowell, vice-president; S. G. Bannan, secretary-treasurer.

Other committees are: baseball, E. A. Harper, George Patterson and C. Fabro; softball, R. Pinkney, T. Battel, P. Barattelli and E. Wile; dance, D. A. Howe, Joe McDougall, S. White and S. McDowell; ticket sales, S. McDowell; football, J. Budd; publicity, W. H. Chappell, O. Botter, S. G. Bannan and W. J. Bartlett.

Invitations have been extended to noted Alberta athletes to visit Blairmore and compete on July 1st. Jerome Platt, of Brant, will again try for the Pinkney Jubilee trophy, which he won in the past two years. Should he succeed this year, the coveted trophy will become his permanent property.

The programme of the day will include football, baseball, ladies' and men's softball, tug-of-war, junior races, etc.

A dance in the Columbus hall at night will conclude the festivities.

BLAIRMORE PUBLIC LIBRARY

The library will be closed for the summer months. Anyone having library books in their possession, please have them returned on or before June 29th.

F. O. McKenna, Liberal candidate, was up from Pincher Creek last week, and incidentally visited Mr. J. E. Gillis, who was still confined to his bed. Mr. Gillis sustained a broken leg about seven weeks ago, and is making good progress.

UNITED CHURCH TO CELEBRATE TENTH ANNIVERSARY

Throughout the congregations of the United church of Canada, special services on June 9th will commemorate ten years of church union. These have been ten years of remarkable achievement both at home and abroad. All United churches in the Pass will celebrate the occasion in their respective churches with services of thanksgiving next Sunday. At Central United church, Blairmore, at 7:30 p.m., the message will convey the story of the last ten years.

Mrs. Gordon Steeves will sing and the Upton string quartette will render a selection at this service. During the past five years the church's work has been handicapped in no small degree because of financial and industrial conditions throughout the country. In an endeavor to make up the deficit accrued last year and to meet the needs for 1935, the whole church is seeking to raise a thank-offering birthday gift. Prior to Sunday, June 9th, envelopes will be sent to adherents for their thank-offering. These may be placed on the offering plate either on Sunday next or on Sunday, June 16th.

On Sunday, the 16th, the celebration will take the form of a central Pass rally of all United churches in the community hall at Coleman, in a great service at 3:30 in the afternoon. Each congregation will assemble in its own church and form a motor cavalcade, converging upon Coleman. A special guest-grace has been secured for the occasion and the worship will be led by combined junior and senior choirs under Mr. Richard Upton, A.L.C.M., of Bellevue. Pass ministers will take part in this service, which will be assembled for not more than one hour and a quarter.

Mr. and Mrs. E. F. Gare, with their daughters and son, Jessie, Dorothy and Ernest, from San Francisco, were camp guests at Crow's Nest Lake for a few days last week. Mr. Gare was at one time connected with the Coleman Miner, a weekly newspaper at Coleman.

DEATH OF J. HOUGHTON

At sixty-three, Jonathan Houghton, former town constable, passed away at Coleman on Tuesday morning, following an illness of several months.

Mr. Houghton was very highly respected, and during his years of service to the town of Coleman proved most efficient. He at all times was ready and willing to co-operate with the Mounted Police in their work.

Mr. Houghton is survived by his widow and sons Harold, of Calgary; Ernest and Sidney, Coleman; and a daughter, Hilda. Several brothers and sisters reside in Canada and the U.S., and in order to permit some of the family to attend the last rites, the funeral will not take place till Saturday afternoon at Coleman.

THE PASS EIGHTEEN YEARS AGO (Blairmore Enterprise, 1917)

April 27—Private Ralph Easterbrook, of Cowley, has been wounded in action.

Four McLaughlin autos were unloaded in Blairmore this week for Messrs. T. M. Burnett, E. C. MacDonald, John Brown and Dr. Alan Ross.

A brother of R. C. Stutchberry, of Hillcrest, has been killed in action. Yesterday's casualty lists contained the name of Wilfred Goddard, wounded.

J. F. Lank and E. J. Pozzi are among the new owners of Fords. William Boyd has been wounded in action.

May 4.—Donald A. Sinclair, Blairmore building contractor, died on Tuesday morning.

The pictures, "Birth of a Nation," are advertised to appear in Blairmore opera house May 15th.

Lieut. H. M. Bennett, of Blairmore, is reported wounded in action. Private Charles Stewart returned home from overseas on Tuesday.

Dr. E. H. Gary preached his farewell sermon at the Union church on Sunday night, and left for Camrose on Wednesday.

May 11.—Harry Jepson and Jesse Briscoe attended the miners' convention in Calgary this week, representing the Frank local.

E. J. Pozzi has taken over the building and contracting business of the late D. A. Sinclair.

The remains of D. A. Sinclair were laid to rest in the Blairmore cemetery on Saturday afternoon. Robert Sinclair, of Field, B.C., and Mrs. Stewart, of Chinoak, Alberta, brother and sister, were in attendance. Funeral service was conducted by Rev. W. T. Young.

Potatoes are quoted on the Calgary market at \$75 a ton. Eggs are 44 cents per dozen here.

Jack McPhail and family have moved to west Blairmore.

G. A. Passmore and H. H. Fitzsimmons are local agents for Chevrolet cars.

May 18.—Premier Borden announces plans to conscript 50,000 men in Canada.

J. J. Murray, C.P.R. agent at Frank, has purchased a Chevrolet.

Writes have been issued for a provincial election, the date being set at June 7th.

Mayor Beebe has declared Wednesday next clean-up day.

Word was this week received by John McPhail, stating that his brother James had died at sea while on the way to Canada from England. James was a former resident of Blairmore, later of Calgary.

Rev. W. T. Young and George Patinson motored to Macleod this week to attend the district meeting of the Methodist church.

J. E. Gillis, member of the board of school trustees, has resigned.

Premier Reid has released Major Douglas' report, in which the claim is made that social credit is feasible.

Balance on hand	\$38.11
\$5.00 prize for best decorated car, won by Mr. Roland Pinkney, was returned to the committee by Mr. Pinkney for Cancer Fund.	

In addition to these receipts, 415 Jubilee Buttons were donated by T. Eaton & Co., Lethbridge.

A. E. FERGUSON, Chairman of Finance Committee, Jubilee Celebration.

The long awaited "grudge" fight between Johnny Campbell, of Lethbridge, and Kid Winters, of the Crow's Nest Pass, will take place at the Lethbridge arena on June the 21st. The two boys have displayed their wares on previous occasions at Coleman.

E. G. Montgomery, for seventeen years superintendent of the Consolidated Mining and Smelting Company's properties at Kimberley, has been transferred to the company's offices in Montreal. Before leaving Kimberley, he was accorded a farewell party by 400 employees of the company, when he was tendered a banquet and presented with a handsome solid silver tray, made from metal refined at Trail and suitably inscribed.

ANNUAL FIELD AND TRACK MEET

Despite the disagreeable weather, the annual inter-scholastic field and track meet at the local stadium on Saturday last was largely attended and the programme was carried to completion. Schools from Pincher Creek to Crow's Nest took part. The official announcement stated that Bellevue school were the winners of the meet with a total of 235 points, Hillcrest second with 142, Pincher Creek third with 96, Coleman fourth with 47½, Blairmore fifth with 44½, Frank sixth with 10, and Pincher Station seventh with seven points.

The silver medals awarded to the athletes gaining most points in the meet will be presented to the following: Junior boys—Seaman, of Hillcrest, and Marcolin, of Bellevue, tied with 23 points each; junior girls—Miss Dorothy Costick, of Bellevue, with 25 points; senior boys—J. Fournier, of Pincher Creek, with 20 points; senior girls—K. Costick, of Bellevue, with 22 points.

List of winners of various events will appear in a later issue.

BURNS—MCEWEN

A quiet wedding was solemnized at the United church, Coleman, on Saturday evening, June 1st, when Jean McEwen and Vernon Burns, both of Pincher Creek, were united in marriage. Rev. R. Taylor officiating.

They were attended by Miss Ruth Herbert and Mr. Francis Fry, also of Pincher Creek.

After the ceremony, the immediate friends and relatives sat down to a wedding luncheon served at the home of the bride's sister, Mrs. G. E. Balnes, Blairmore.

The happy couple left for Vancouver and other coast points, where the honeymoon will be spent. On their return they will reside in Pincher Creek.

The Fernie Brewing Company has declared a dividend of 10 cents per share, payable July 2nd to shareholders of record on June 17th.

In the Wellington, Ont., Legitimacy draw on May 24th, first prize, Chrysler six, went to D. A. Duggan, Sarnia, Ont.; second prize and second sellers' prize, Plymouth coupe and Westinghouse radio, to C. Tallow, Melfort, Sask. D. Picco, of Michel; Frank Svec, of Natal; Herbert Mah, Blairmore; A. Johnson, Canal Flats; J. McPhee, Fernie; S. Sois, Natal, are listed among the consolation awards.

DEATH OF OLIVER WINSTANLEY

Oliver Winstanley, brother of Robert Winstanley, senior, and Mrs. Flint, of Michel, passed away in hospital at Edmonton on May the 31st, following a brief illness.

The remains were brought to Michel, where interment took place on Wednesday afternoon.

Mr. Winstanley was a former resident of Michel, and is survived by his wife and five young children.

The funeral service was largely attended, particularly by members of the Oddfellow and Rebekah lodges, with which he was connected. Bob Winstanley, of the official staff of the Michel Collieries, is a nephew.

The remains were laid to rest in the Natal cemetery beside the grave of his mother, Mrs. Mary Winstanley, who passed away in 1931.

W. Stevenson, of Hillcrest, and Alex. Morrison, of Coleman, were among those attending the banquet tendered E. G. Montgomery at Kimberley.

WORLD HAPPENINGS BRIEFLY TOLD

Two more Roman Catholic monks have been arrested in Germany charged with smuggling money to the Netherlands. It was announced.

Well-informed quarters said the British government was considering the possibility of holding a seven-power naval conference before the end of this year.

Concluding one of the most successful years in its history, the Canadian Club of New York re-elected Ernest W. Appleby president for a second term.

Deaths in Ceylon's malaria epidemic totalled 82,637 since last November, it was revealed with publication of figures showing 15,933 malaria deaths during April.

L. R. Cordeau, chairman of the Quebec liquor commission, announced that restaurants henceforth will be allowed to sell beer and wine with meals on holidays and Sundays.

James W. Blake, the man who wrote the "Sidelights of New York," died recently in St. Vincent's hospital, New York, Blake, 72, died penniless. He never received royalties for the book.

Destined for service as a newsgatherer, with the entire Japanese empire as its "beat," a powerful monoplane has gone to Osaka, Japan, on the Tokai Maru. It is the property of the Osaka Mainichi, Japanese newspaper.

Minister of the Interior T. G. Murphy told the House of Commons that \$225,000 will be spent this year on the Jasper-Lake Louise highway in Alberta. The money will be provided in the \$33,000,000 construction bill.

The Canadian Pacific Railway has placed an order for 7,000 tons of rails with the Dominion Steel and Coal Corporation to be rolled at the Sydney plant, it was learned. The plant is now working on a South African order.

Pioneers In Cocoa Business

Founders Of Three English Firms Were All Quakers

The Port of London Monthly, which records the export and import trade of the British Empire, digressed from the shipping industry a recent month to relate the rise of three Quaker firms who loom large in the cocoa trade, shipping to all parts of the world. The Editor relates how "after a time the manufacture and sale of cocoa and chocolate in this country were embarked upon by several families of the religious denomination of Quakers. The Frys in the Midlands, and the Rowntrees in York—all belonging to the Society of Friends—were pioneers whose names are all now writ large in chocolate all over the earth. Each of the businesses, beginning in modest style, has now expanded to a size and repute which makes this trio of names known everywhere."

A Colorful Memorial

Man Builds Wonderful Garden In Memory Of Son

Gleiden Price, sixty-eight years old, of Lattimore, N.C.—the "tulip king" of the world, with a garden of 100,000 tulips—has built up his garden as a memorial to his son who died overseas during the World War. Only Price has worked in the garden. The plots, giant color combinations that an artist would conceive, are all his. Last year he left only 5,000 tulips in the ground. He has set out at least 95,000 this year. For fear that he might run out of work this summer, Price had about 15,000 gladioli to set out. And there are hundreds of lilies and amaryllis bulbs.

Reason Soap Will Float

Any soap can be made to float by manufacturing it by a process that presses air ducts into the bar, says Popular Mechanics. These ducts also speed up curing, permitting the soap to dry out from the outside. So small are the ducts that they retain air, preventing water from entering. This results in floating. The old method was to beat air into the soap before it was shaped into bars. This made the soap porous, since it was filled with minute air cells.

A delicious use of flowers is urged by the Quebec Tourist Bureau to make rural hotels even more attractive, since there is nothing so restful as beds of flowers in front of and around buildings in both town and country.

A male stenographer wouldn't quit a \$25 job to wash dishes for nothing.

Supremacy Of The Law

Even England's King Must Obey Command Of Court

The Duke of Manchester, sentenced to nine months in jail for fraud, observes ruefully that people are mistaken if they think it is unmitigated fun to be a duke. This seems a reasonable statement. If the head that wears a crown cannot always rest at ease it is not to be expected that the head which wears a coronet with strawberry leaves will go through life without a hurt.

Putting a British duke in jail for fraud is appropriate in a Jubilee Week which has repeatedly sounded the note of the supremacy of the law to crown and caste. Burke said of the meaneast English hotel that the winds may enter it and the rain may enter but the King of England cannot enter without the owner's permission. On the other hand, a court of law is something which every Englishman must enter, even the King. It will be recalled that some time ago George V. was plaintiff in one of the London courts against a middle aged man who suffers from the delusion that he is the King's eldest son by an early marriage.—New York Times.

Cook Wins Strange Duel

Special Stew Broke Down Hunger Strike Of Agitators

After an anxious few days the cook of the fortress of Honswijk, Holland, near Utrecht, is smiling again, for he has won a strange duel.

A band of German Communist agitators interned in the fortress went on a hunger strike. They turned up their noses scornfully at all food served to them.

For three days the cook labored to break down their resistance with the choicest dishes he could turn out. The Communists swallowed hard to stop their mouths from watering at the sight of the tempting food, but wouldn't eat it.

A daily aeroplane service could be operated with ease between Calgary and Vancouver, Grant McConachie, youthful pilot of the tri-motor monoplane, believed.

Have No Individuality

Ants Work As They Forebears Did 50,000,000 Years Ago

Lord love us, who would be an ant? True, ants do not suffer from unemployment. When you move a stone, there they are, all rushing about and very busy, and all doing exactly what their forebears did 50,000,000 years ago. At least, Professor Symond, of Ontario Royal Museum, says so. He shows that all the ants have an hereditary occupation, one being a soldier, another a servant, and so on. No social changes ever take place, no reforms. The ant population have no new ideas about government, war, business, family, pleasure, or anything else. Custom rules everything with them. The ant goes on toiling not because he is a thinking, intelligent, characterful citizen, but because he has never developed the power of individuality. So he still lives in a mound, or under a stone.—London Daily Express.

Peanuts Worth Money

Error Might Have Been Costly, But Man Was Honest

The thrill of an impending Christmas, fresh upon him, Louis De Costerio, roadhouse waiter, rushed into a candy store in North Attleboro, Mass., and ordered 25 cents worth of peanuts.

At home, he put his hand into the bag and pulled out \$750 in bills. The clerk had given him a bag containing the day's receipts. De Costerio went back and exchanged the \$750 for 25 cents worth of peanuts.

Are Real Benefactors

The Mitsui family, one of the richest in Japan, has ordered five grammes of radium from the Belgian Congo at a cost of 1,000,000 yen. Four grammes will be placed at the disposal of the Cancer Institute and the other given to the Physical Research Institute.

Speaking as an artist, one would say that the golden skin of the grapefruit is beautiful, but speaking as a practical person, one must admit that it is generally the juice that catches the eye.

Dry rot is a name for the decay of timber after it has been seasoned. Dry rot is usually slow in action.

Flattery is a key that has opened many a feminine heart.

CHECK ON ITALY?

Reports from England state that a movement is gaining strength to close the Suez Canal to Italian troops if the Italian-Abyssinian controversy becomes more acute. The map above shows how effectively such a blockade would shut off direct route to Italian Somalia.

Direct Air Mail

First "Over The Top" Flight Completed Successfully

Winging through rain, squalls, Grant McConachie landed his big tri-motor plane at Calgary, completing the first over-the-mountain commercial flight from Calgary to Vancouver.

The young United Air Transporter's pilot flew from Kelowna, B.C., about 300 miles, in a direct "over-the-top" flight, carrying five passengers and the first aerial mail and express to be sent from Vancouver to Calgary via the mountains route.

A daily aeroplane service could be operated with ease between Calgary and Vancouver, Grant McConachie, youthful pilot of the tri-motor monoplane, believed.

FASHION FANCIES

CONSERVATIVELY SMART FOR SUMMER DAYS

By Ellen Worth

For office, tea party or trip to town. Here's one of those useful little dress dresses that are dear to the hearts of the business woman.

It's a dress that does for luncheon at a smart restaurant, or for dinner in town.

It's made of exquisitely lovely sheer crepe shadowy print in pale to coppery blue tones. The collar and bow are of crisp white organdy. You'll find it very simple to sew with its easily fitted raglan sleeves.

Style No. 532 is designed for sizes 14, 16, 18 years, 34, 36 and 40-inch bust. Size 16 requires 3 1/2 yards of 36-inch material with 3/4 yard of 36-inch contrasting.

Patterns 20c each. Address mail orders to: Pattern Department, Winnipeg Newsprint Union, 175 McDermott Ave. E., Winnipeg.

The Spring Fashion Magazine is better than ever. Entirely illustrated in color you will find it a very stimulating fashion edition. There are clothes for cruising and clothes to brighten the lives of stay-at-home. Many delightful little models for the smaller members of the family. Of course, patterns are available in the designs illustrated. Send for your copy to-day, the price is 30 cents.

When Shadows Fall

By WILL R. BIRD

There never has been a more dreadful horror on this earth than the Shadow. There may have been cruel slavers in the centuries before civilization; but never since Christianity and culture became dominant. And there never have been more glorious hours than some of those we lived "over there". Horror—sure! Glory—sure!

It was an evening in late May. We had come from the trenches in front of Avion and were due for a "rest" somewhere. We had come to the sheltered side of Vimy and the companies were supposed to be quartered in the tunnels. But who could go down in those clammy shafts if it were possible to sleep in a snug bivvy you and your side kick had pushed together in a pocket of earth where the grass had grown lush and still held the heat of the sun? We had "salvaged" a sheet of the company's few remaining blankets, and the sides, and there we could lie and gaze at the stars until sleep came.

We had rested all the day, with nothing to do but clean ourselves a bit and eat. The food had been kind, and there was mail from home. In the soft evening air voices of the grove musical. Someone up the slope had a banjo and there was a soldier's harmony of popular songs, earnest voices if not well trained. Away in front of us the towers of Mount St. Eloi were like sentries in the dusk. Now and then a light twinkled in the village. There were horse lines everywhere.

As I lay as the dusk thickened, and transport was on the move away back. We didn't have to do a thing but yield ourselves to delicious languor. Jimmy read bits from his letter. Some of the boys back in his home town had killed in his poor old mother, with three boys at the front, was a trifle bitter. We gazed thinking of what she had written.

A lad we both knew appeared suddenly. He belonged to the good old 48th, and we were to see he had got through the Vimy show. We talked rapidly for a few moments, then all three of us went down, over near Villers au Bois some infantry were in camp and all at once "bugle time" came. "Post!" As the haunting sweetness of that call came over the land it seemed to put a spell upon us. Spring had come.

There were flowers which had been blasted earth and they hid the wreckage of old trenches. We were out for rest. We had come through the voices from Canada were with us, for we had read the 49th lad had written. And something about it all made us suddenly choked for speech, made us thrill with a pride in being there and for that moment the glory of being fighting men swelled our hearts.

Then we rose and led our friend across the way to where some of thirteen platoon had made sleeping places, and we had decorated them with flowers. And something about it all made us suddenly choked for speech, made us thrill with a pride in being there and for that moment the glory of being fighting men swelled our hearts.

The first was "Vieh," and the other "Friedrich." The boys thought it grand to have such adornments and were waiting patiently until their stretcher bearer joined them to find out the meaning of the words, and we chuckled together as we explained. The first was "cattle" and the second "horse" and what a time there would be when those lads knew.

We walked back a distance with the Forty-ninth, just walked without talking. The night was too fragrant with the lilacs and dew and scent of flower and strong grass, too soothing with the murmur of voices, as we talked. Then "So long, Joe." "So long, boys."

Back at our bivvy Jimmy and I sat for hours, just drinking in the night, the sounds about us, the guns firing on the Somme, the faint faraway rattle of machine gun fire, traffic, drowsy voices. Next as I lay, I wonder where Jimmy is now, as I live, will I forget that night. It seemed to hold us, entrail us.

I wonder where Jimmy is now, as I live, will I forget that night. It seemed to hold us, entrail us.

Retains Its Freshness

Freezing Is New Process To Keep Buried In Sweet Corn

Government agricultural experts have found that sweet corn frozen within four hours after it has been picked retains its original freshness from six months to a year. Freezing stops most of the changes which normally occur rapidly in corn. In the experiments gathering, grading, husking, scaling and cooling for freezing were all completed as rapidly as possible. The scaling, it is believed, temporarily stops the chemical action taking place in the corn and the freezing permanently stops the action so that if served six months later its original freshness is retained.

Paris plans a new intellectual centre called the International City of Thought and the Arts.

Don't think the man who makes the dearest prayer in public can always get the longest credit.

SUNDAY SCHOOL LESSON

JUNE 9

THE HOLY SPIRIT

Golden text: As many as are led by the Spirit of God, these are sons of God. Romans 8:14. Devotional Reading: John 14:25-31.

Explanations And Comments

What the Comforter Will Do, John 16:7-11. Unless he went away, Jesus told his disciples in his farewell talk, the Comforter would not come, but if he went he would send the Comforter to them. The world Comforter, used for the Holy Spirit, means One who strengthens, upholds, rather than One who consoles. Advocate, Helper, are other translations of the Greek word given in the Bible footnote.

It was best for his followers that he should leave them, Jesus said. How could it be for their advantage, to their best interest, to lose the daily companionship of their Lord? The Holy Spirit is the continued Presence of Christ himself. The Spirit revealed Christ to them, made plain the spiritual truth of his teachings. They knew Christ better after he had left them. While he was with them, they were weak, unable to walk alone. After he went away, leaving them as his witnesses to carry on his work, they became towers of strength. Great leaders, who continued all that Christ had begun to do and teach.

When the Holy Spirit has come, he will convince men of sin, that it is a sin not to believe on Christ; of righteousness, because Christ was going to the Father. The Holy Spirit will convince mankind that Christ is a sincere and righteous Teacher, and not, as they had thought, an impostor, as will be clearly demonstrated when the Father has raised him from the dead and set him at his right hand in heaven" (Dummelow). The Spirit will convince of judgment, of condemnation, because the price of this world hath been judged. "Did not Christ condemn the rulers, in Pilate, in the soldiers, in the multitude, uncivil itself as it by an irresistible compulsion, and at last exclaim, 'This man is just!' We say sin was exposed on that day—'judged,' said Christ; 'the price of this world has been judged'; not pushed, but exposed and condemned, judged as a prisoner in court is judged when he is found guilty and sentenced as a criminal, even before the hand of the law takes him from the bar" (Thomas E. Bartlett).

Fluorine is a pale greenish-yellow gas, condensed to a pale yellow liquid. It combines explosively with hydrogen, even in the dark. Many other elements, such as sulphur, phosphorus and carbon, catch fire spontaneously in fluorine, and fluorine is hydrofluoric acid. This acid attacks glass, and hence must be kept in bottles made of gutta-percha or ceramic. The electrolysis of a fluorine compound in an apparatus constructed of platinum. Fluorine was given off at the positive electrode.

Search May Be Ended

Man In Brantford, Ont., Claims He Has Holy Grail

Has the search for the famous Holy Grail ended in Brantford?

George B. Brenner vows it has, and discards the sacred vessel which he claims is the original.

Brenner declares the vessel was presented to his brother-in-law by a Christian Jew, in Jerusalem several years ago. The Jew, who was a vessel which he claims is the original. Brenner declares the vessel was presented to his brother-in-law by a Christian Jew, in Jerusalem several years ago. The Jew, who was a vessel which he claims is the original.

Tradition has it the Holy Grail was obtained by Joseph of Arimathea, who took the body of Christ from the cross and buried it. Joseph took the Grail to Glastonbury Abbey in England, so the story goes.

The Holy Grail was sought by King Arthur and by the Knights of the Round Table and by the Crusaders.

Greenwich Clock Being Overhauled By Experts

Has Been Stopped For First Time In Over Eight Years

The clock which gives the world Greenwich Mean Time has been stopped for the first time in eight and a half years.

Its 268,000,000 ticks, one to a second, may have impaired its working slightly, so the officials at Greenwich Observatory have decided to have it overhauled.

"The clock is one of a series of four used for astronomical observations," an official of the observatory said. "It has established a record over the number of years it has run without stopping. The clock is a masterpiece of workmanship, the delicate task of overhauling it. In the meantime, we shall give time signals by the three other clocks. They are all 'master' clocks driven by electricity."

Amelia Earhart Is Ambitious

Goal In Aviation Is To Equal All Records Achieved By Men

Miss Amelia Earhart, ocean and long distance flyer, told several hundred members of the sex school her goal in aviation is to equal all records achieved by men.

"I'll keep on flying until I achieve in aviation everything that men have achieved," Miss Earhart said. "I'm going to equal their records and then some."

Origin Of Old Term

Ancient sailors believed that the halcyon, a bird of the kingfisher family, nested on the waves about the time of the winter solstice, and that the sea remained calm and peaceful during this period; hence the term "halcyon days" for times of peace and tranquility.

OBSERVATIONS BY F.J.S.

Now that the mines at Corbin have been closed down tight, the tools and equipment stored, the business houses and the residences boarded up, we can stand back and get a proper perspective of what has been accomplished. If this condition has been brought about through the efforts of the Workers' Unity League of Canada, whose aim, we are informed, is the mobilizing and organizing Canadian workers into a powerful revolutionary body for the final overthrow of capitalism and for the establishment of a revolutionary workers' government, then this organization has made a signal success of the job. Today Corbin is just another ghost town—as dead as the proverbial door nail. With the closing of the mine 650 men, women and children are looking for new locations, for there is no work in the district for its inhabitants. Some 350 miners are out of a job. If this is the way the Workers' Unity League assists its members, then we are thankful we do not belong to the Workers' Unity League of Canada.

Only a short time ago Corbin was one of the brightest spots in British Columbia. It was a prosperous coal mining camp with happy homes and contented workers. If published reports are correct, miners were making all the way from \$112.00 to \$200.00 a month, so it surely was not a question of wages that brought about the trouble. What did start the trouble, so we are told, is that the company dismissed an employee for quitting work too early, and not dumping a trip of coal as a result. We have been further told that this man had been warned before about knocking off before the whistle blew. In spite of this, the union demanded that this man be reinstated, and when this request was refused, the strike was called. If it was the mission

of the radicals to utterly destroy this camp that accorded them a living, they must feel justly proud of this accomplishment, for they made a thorough job of it. The workers may look upon this tie-up as a master stroke of ingenuity, but to us it looks more like a case of biting the hand that feeds you.

And on the Corbin situation the Coleman Journal has this to say: In Corbin, where as a result of the recent strike, the company decided to close the mines, the "Reds" had a "victory ball." It puzzles one to find what they are celebrating. Maybe it is just the slick way of the paid agitator trying to further fool his dupes by making them believe they have won something instead of losing their jobs.—Cranbrook Courier.

AN IMPORTANT RECIPE.

Always anxious to be of service to our readers, we hasten before it is too late to pass along this timely bit of information for making dandelion wine. The dandelion, as you perhaps know, is that pretty little yellow flower (dent de lion) that bobs up again greets you about two hours after you have cut its bloom's head off with the lawn mower. Well, here's the recipe:

To one quart of flowers add four quarts of water, two sliced lemons and let stand for three days. Then boil 20 minutes, strain and stir in three pounds of sugar. When lukewarm put in one Fleischmann yeast cake. Strain again and let stand in a warm place for three weeks. Bottle and it is ready for use, but improves with age.

Now, in return, all we ask is that when you stage your little party you shall not forget to let us in on it.

YES, SIR!

Here I lie upon the bed,
Throat so dry and throbbing head,
Bloodshot eyes and body sore,
The morning after the night before.

Can't eat nothing, got no pep,
Lost my money and lost my pep;
Can't get up, I feel so bad,
Boy, what a wonderful time I had!

Never felt so bad before—
Even my darned old tongue is sore,
When I sneeze I still taste gin—
Gosh, what a party it must have been.

Can't remember where I went.
Don't know where the time was spent;
But wow, what a time it musta bin,
Look at the helluva shape I'm in.

Bright's

HERMIT

PORT and SHERRY

Wines that make every meal a "Party"!

You don't have to wait for a "party" to enjoy HERMIT PORT or HERMIT SHERRY... for, they are priced to come within reach of modest budgets... the quality makes every meal a "party" and the price makes a "party" practical at every meal!... include these delicious, goodly, gentle wines in the daily family diet... they are FORTIFIED WITH PURE GRAPE BRANDY and rich in the qualities that promote appetite and digestion.

BLAIRMORE UNITED CHURCH

Rev. Albert E. Larke, Minister

"Serve the Church that the Church May Serve You."

Services Sunday, June 9th, the minister in charge.

11 a.m.—SENIOR SCHOOL.
2 p.m.—JUNIOR SCHOOL.
7.30 p.m.—PUBLIC WORSHIP.

ST. LUKE'S CHURCH NOTES

Rev. A. S. Parlington, B.A., Rector

Services Sunday, June 9th:
10 a.m.—Sunday School.
Morning service at 11 o'clock.

HILLCREST UNITED CHURCH

Rev. John Wood, Minister

Service on Sunday at 7.30 p.m.

The mass of the people are demanding, and are determined to obtain, better living conditions than they now possess. We are here to emphasize that there ought to be an equally insistent endeavor after better living.

The piercing insight of Christ revealed to Him that the latter was the vastly more important of the two.

THE SALVATION ARMY

Coleman, Alberta

Lieut. Fred J. Weir, C.O.

Meetings every week, as follows:
Fridays: 7 p.m.—Young People's meeting.

Sundays: 3 p.m.—Sunday School.
7 p.m.—Public Salvation meeting.
Captain I. Halsey, of Macleod Corps, in charge of Sunday's meetings.
A hearty welcome to all.

AT LAST THE SKUNK HAS FOUND A FRIEND

Rockyford, May 29.—The most friendless of all animals, the skunk, has at last found a friend. The cat of A. Miller recently developed a strong maternal instinct when wandering forth into strange rural places, and returned home with a procession of five cute little baby kittens. Mr. Miller was at first delighted to think that pussy had duplicated Madame Dionne's effort in Callander, Ont.; but some strange appearance, and what was worse, a stranger odour, made him look twice. Pussy was oblivious to the frowns on her master's face as she purled over her adopted quintuplets, while Mr. Miller fled for the deodorant. The quints, it was learned, are baby skunks.

Thomas Soper, former treasurer of Gows' Street United church, St. John's, Newfoundland, was sentenced to six months in prison with hard labor after he pleaded guilty of embezzling from the church trustee fund. Shortages of about \$10,000 were discovered in his accounts, covering a three-year period.

The Normandie, world's largest ship, is a veritable steel and glass-encased floating city. Her weight, 79,820 gross tons, is more than 22,000 tons in excess of any other passenger ship afloat. Her four propellers—each weighing 25 tons—are driven by engines producing 160,000 horsepower maximum. Her anchors weigh 17 tons each. The Normandie can transport 2,170 passengers without crowding, and is staffed by a crew of 1,320 men and women. Some of her novelties are 1,100 telephones, cabins and private terraces, a formal garden, a theatre, a night club and several swimming pools, any of which are larger and cost more than the red pool of Blairmore.

A JUBILEE HYMN

The following Jubilee hymn was written by Mr. G. A. Kingston, of Toronto, to be sung following the first verse of the National Anthem: God bless our Sovereign Lord, As we with one accord

Our tribute bring:
Almighty King of Kings,
"Neath Thy protecting wings,
Guard, while the Nation sings
"God save the King."
Our Gracious Queen, may she
Loved by her people be,
God save the Queen;
With loyal hearts aflame,
Let us with glad acclaim,
Sing praises to her name,
God bless our Queen.

Thus on their Jubilee,
Joined one in heart, may we
All, rich and poor,
Sing praise to God above,
And to our Sovereigns prove,
Strong in an Empire's love,
Their Throne secure.

She frowned on him and called him Mr.,
Because, in fun, he merely kr.
And then, in spite,
The following night,
The naughty Mr. kr. ar.

Romantic rumors are current, connecting Mrs. Thomas A. Edison, most answer the same purpose as a widow of the late inventor, and Edwin E. Hughes, long-time friend, in all the morning, a parrot which a proposed marriage. They are each 73 years of age.

EXTRACTS FROM

JEWISH TALMUD

The following are extracts from the Jewish Talmud used in connection with backslidings and pestilential propaganda:

"If the ox of an Israelite bruise the ox of a Gentile, the Israelite is exempt from paying damages; but should the ox of a Gentile bruise the ox of an Israelite, the Gentile is bound to recompense him in full.

"When an Israelite and a Gentile have a lawsuit before thee, if thou canst acquit the former according to the laws of Israel, and tell the latter such is our law; and if thou canst get him off in accordance with Gentile law, do so, and say to the plaintiff such is our law; but if he cannot be acquitted according to either law, then bring forward adroit pretexts and secure his acquittal. No false pretext should be brought forward, because if found out the name of God would be blasphemed.

"If one find lost property in a locality where the majority are Israelites, he is bound to proclaim it; but he is not bound to do so if the majority be Gentiles."

A famous literary woman was often asked by her friends why she never married. "Well," she would reply, "I have three pets at home, which, meeting Mrs. Thomas A. Edison, most answer the same purpose as a husband. I have a dog which growls in all the morning, a parrot which swears all the afternoon and a cat which comes home late at night."

Ample cloth where cloth is required

WHEN you are bending and twisting, you want ROOM for action—no binding anywhere! BELLEVUE HAPPENINGS

John Shevels sustained painful hand injuries while following his occupation in the mine last week.

The Bellevue baseball team went down to defeat against Hillcrest by a score of 6-2.

Mr. and Mrs. G. W. Jordan, junior, are rejoicing over the advent of a baby son.

The Bellevue school again captured the shield at the interscholastic sports at Blairmore on Saturday last. The committee report that Bellevue won by the big margin of 93 points over their nearest competitor, Hillcrest. The shield has been competed for for the past nine years, with Bellevue school winning seven out of the nine.

Mr. and Mrs. Wayne Mills are rejoicing over the advent of a daughter on Friday last.

The home of Mr. and Mrs. Noble McDonald was the scene of a nicely arranged miscellaneous shower on Friday evening last, in honor of Miss B. Micholason. There were upwards of seventy guests present. The first part of the evening was devoted to whist, prizes for which went to Mrs. I. Ward and Mrs. G. Koentges. After cards, a dainty luncheon was served by the hostess, after which Miss Micholason was presented with two well-filled baskets of beautiful and useful gifts. In a few well chosen words, Miss Micholason thanked her many friends for their kind remembrances.

Wm. Blinzer, of Cranbrook, is visiting with his daughter, Mrs. C. W. Johnson.

Mr. and Mrs. S. J. Lamey are occupying the house recently vacated by Mr. and Mrs. J. J. McIntyre.

Mrs. Foster, of Coleman, was a Bellevue visitor last week, guest of her daughter, Mrs. J. H. McLean.

Mrs. E. Haggland, of Waterton, was a visitor here with Mr. and Mrs. O. Haggland.

Sergeant: "But you say you're a college student?"

Prisoner: "I am, sir."

Officer: "But he can't be! I've searched him and there ain't a single magazine subscription blank on him."

"What is an optimist, Dad?" inquired the hotel man's daughter.

"An optimist," replied her father, "is a man who arrives at our hotel without baggage and tries to cash a cheque."

Heads False Teeth

Shop Where You Are Invited to Shop

Every advertisement in this paper is a printed invitation to you. Obey that impulse.

Local and General Items

Thirty years ago, the Nanton News changed hands, sold by John M. Bender to A. Z. Jessup and D. J. Jones. Mr. Jessup and a son are still operating the paper and printing plant.

Wanted—Someone who can determine between a one-dollar bill, a two-dollar bill, a ten or a five by the sense of touch. We have been informed by a local smart guy that it can be done.

The Noble hotel at Calgary has changed hands at a figure of around \$200,000. The purchaser, F. R. Webster, plans on making improvements to the extent of ten to fifteen thousand dollars.

Now that seeds and shrubs have been planted in Blairmore's toy parks and boulevards, looks as though men are employed to sleep on the disturbed lands, if necessary, till nature gives evidence that they will survive.

Some of the Alberta cabinet ministers express disappointment at the confidential report of Major Douglas, father of the Social Credit theory, one minister claiming that Douglas "failed to deliver the goods."

Coleman spends ratemakers' money on utility improvements, while Blairmore spends considerable on frills. That which aims to be spectacular usually is of far less benefit than what may be utilitarian.—The Coleman Journal.

Over 255,000 visitors registered at Alberta's national parks in 1934, an increase of 20,000 over 1933. Waterton had 36,700 of them. Hundreds of enquiries from prospective tourists are now being handled at the provincial publicity office.

People of Frank desire through The Enterprise to sincerely thank the Town of Blairmore for a very generous supply of garden dirt waited to them from Blairmore's parks, etc., on Friday last by a west wind.

They state they would rather the Coleman soil as it is such a different color.

Charles Brewer, late of the Granum district, appeared before Magistrate Gresham here last week on a charge of stealing a diamond ring and other articles from the home of his employer, Frank McDougall, of Granum, and on pleading guilty was sentenced to two months in jail. He was arrested in Blairmore by the R. C.M.P., and the articles were found on him.

The C. Taysam tailor shop at Pincher Creek had a close call on Tuesday morning, when a can of high test gasoline exploded and burst into flames. The fire engine was called out, but the flames were extinguished before its arrival on the scene. Mr. Taysam suffered severe burns on one arm and his legs were scorched, but luckily very little damage was done to the shop.

The Colleens defeated the Coleman girls 14 to 9 on the local diamond Sunday afternoon.

Mr. and Mrs. S. Brown were visitors with Mr. and Mrs. S. Purdy on Friday evening last.

The Guides' tea and sale of work on Saturday last was well attended. At the card party in the evening, prizes were won by Mrs. C. Swanson, ladies' first; Mrs. M. E. Rhodes, consolation; J. Kabatoff, gents' first; Miss A. Kabatoff (playing as gent) consolation. The quilt was won by Mrs. D. Rhodes on ticket 115. The cushion was won by Mr. E. Lindberg on ticket 31. The next sum of \$33 was cleared.

Mr. and Mrs. L. Emmerson and daughter, of Coleman, were visitors here on Sunday evening.

The game between the local men and the South Fork relief camp team resulted in a 6-10 win for the camp. Miss G. Roberts returned home from Cranbrook to spend her holidays with her father.

Mr. and Mrs. G. Steeves and little daughter spent Sunday evening at the Windsor hotel, guests of Mrs. E. Madden.

HILLCREST HAPPENINGS

Mrs. E. Cressman and Grey are Calgary visitors.

The Hillcrest baseball team defeated Bellevue at a league game on the Bellevue diamond on Monday evening by a score of 6-2.

James Marshall returned home on Friday for the summer. He has been studying music in Calgary during the past year.

Mr. and Mrs. M. B. Walker left on Wednesday for their vacation.

Mr. and Mrs. S. Richards, accompanied by Mrs. Walter Rose, motored to Calgary last week end. Sam Richards, who has been attending normal school, returned home with them on Friday.

The Bellevue junior footballers defeated the Hillcrest juniors 2-1 in a game here on Thursday.

The Hillcrest senior football team motored to Fernie on Sunday for a game.

ROBBING PETER

Peter MacNab had been arrested for inebriety, and had an unusual excuse in court next day. "I wasa drunk, sir," he said earnestly. "I found myself outside a kirk, and knowin' ma unworthiness to gang inside, I knelt down on the steps and said a wee bit o' prayer."

"I see. You were really holding a little service of your own?" asked the magistrate.

"Yes, that was it, sir."

"Well, we'll now take up the collection. Seven and sixpence or three days."

You have heard of that wonderful ice-detecting device, recently invented and now attached to most ships plying the Atlantic. Well, Andy Dow, of Coleman, has conceived something along the same lines which can be attached to your fish rod. It records the length and weight of a fish approaching your hook, and describes fully the intention of the fish long before you hook him.

A would-be fisherman, who gathers all his ideas of fishing during his sleep hours, dreamt a new one a few nights ago, from which he conceived this idea: Take a thirty-foot section of stiff steel wire. Attach the ends to the back fins or tails of two of the largest fish in the stream (the larger the better). Suspend about twenty bait hooks along this wire, each to hang about two feet deep. Bait the hooks and wait for results. If a kicking fish should come to the surface, you may brand him as yours.

The accompanying chart shows how the price of gasoline to the retailer has decreased and the gasoline tax has increased since 1924. The data for this graph are based on figures published by the Dominion Bureau of Statistics.

LOWER PRICES — HIGHER QUALITY

EVER since 1920 the price of gasoline has steadily declined. Few people realize this however because during the past ten years as the price dropped the tax increased. In 1923 there was no provincial gasoline tax and the average price of gasoline to retail dealers across Canada was 27 1/10 cents per gallon. Today the average price of gasoline to retailers is 19 1/10 cents but to this is added a tax of from six to eight cents per gallon which goes directly to the provincial governments. Not only has the price of gasoline fallen steadily since 1920 but the quality has

consistently improved. The gasoline consumer today gets more value than ever before.

Sometimes you hear talk of large profits earned by the gasoline refiner. In 1934 Imperial Oil earned \$3,023,400.12. This may seem to be a large sum but to earn it Imperial Oil had to make and market gasoline and other products amounting in value to \$82,841,311.15. That is to say Imperial Oil's earnings were relatively no

greater than those of a merchant who, selling \$8,280 worth of goods in the course of a year, made a net profit of \$300.

IMPERIAL OIL LIMITED

Mayor Andrew Davison has wired George W. Gorman, deputy minister of education, Edmonton, dropped that 1000 relief camp trekkers be not dead on a passenger liner on Saturday last while enroute from Montreal to Bermuda on a health trip. Mr. Gorman was named deputy minister only a few months ago. He was for many years chief inspector of schools.

Coleman's main street is nearing completion. We understand that when completed an invitation is to be sent to Blairmore to come up and take a few pointers from a real job. As the town of Coleman refuses to squander ratemakers' money, visitors are asked to bring their lunch.

The Blairmore Golf Club have taken a leaf out of the Lethbridge Golf Club, and are now charging green fees for golfers of the Pincher Creek Club. Pincher Creek, we hope, will not retaliate and still welcome all members of the Crows' Nest Association to our golf course free of charge. —Pincher Creek Echo.

Lionel Fournier, of Pincher Creek, won the championship under 19 years of age against strong competitors from Southern Alberta in the polo vault at the Cardston meet on Victoria Day. He also came second in broad jump, first in high jump, second in shot put, third in discus throw and first in javelin throw—in all 46 points.

Miss McVey: "Willie, define the word puncture."

Willie: "A puncture is a little hole in a tire, usually found a great distance from a garage."

Wife. "And you swore you'd always treat me like a queen."

Hubby: "Well, 'ang it all, I ain't 'Enry the Eighth."

Mrs. Jones was spending a day in bed with a severe cough, and her husband was working in the back yard and hammering nails into some boards. Presently his neighbor came over. "How's the wife?" he asked. "Not very well," said Jones. "Is that her coughin'?" "No, you fathead," replied Jones, "it's a henhouse."

Child Labor

In Canada, and in the western provinces particularly, as in many other agricultural countries, laws are enacted and regulations made under those laws from the operation of which the industry of agriculture and those engaged in it are exempted. For example, legislation regulating hours of labor in industry cannot well be made applicable to agriculture, although there are some idealists who, shutting their eyes to practical conditions, urge that such laws could and should be applied and enforced on the farms as well as in the factories. Workmen's Compensation Acts, passed for the protection of urban workers, are in many respects not applicable throughout the rural sections.

As we proceed to write this article, daily newspapers lie on the desk telling of the complete wreckage of the N.R.A. codes governing industry and business generally throughout the United States as a result of a decision of the Supreme Court declaring such legislation unconstitutional, being beyond the powers of Congress to enact inasmuch as it encroaches upon and usurps the constitutional rights and powers of the individual States of the Union.

Whatever varying and opposing opinions people may entertain regarding the Roosevelt experiment as a whole, there has been general approval of the provisions in the N.R.A. codes prohibiting child labor in shops and factories. It has been estimated that an army of at least 100,000 children marched out of shops and factories with the establishment of these codes, and there was a widespread belief that thereby the increasing problem of child labor had been solved for the time being at least. Now the protection afforded these children has been destroyed, although it may be hoped that those in control of industry will not revert to the employment of child labor.

Unfortunately, industry accounted for only a small proportion of the 700,000 children under 16 who were listed as working at the time the U.S. census of 1930 was taken. By far the greatest number, almost half a million, were found in the ranks of agriculture, to which the codes did not apply. It has been pointed out that the cotton fields, tobacco fields, truck gardens, beet fields, onion fields, potato fields, cranberry bogs, berry farms, hop fields and orchards with each returning season make their demands upon the nation's children, and that to hundreds of thousands of boys and girls, many as young as six, the coming of the end of school sessions meant not the beginning of a holiday time of freedom and play but a period of toil that often starts at sunrise and ends at sundown.

Except for the fact that these children work in the open air, their lot is in many respects a harder one than those children in shops and factories, and one can appreciate the yearning expressed by one 12-year-old boy for the day when he will be old enough to get a job in a mill and work only eight hours a day.

The situation in Canada is, of course, not comparable to that in the United States, or in other lands where congested populations cite out an existence and intensive tillage of the land by the whole family is necessary. Furthermore, in Canada our standard of living and of education is much higher than in most countries, and in the cotton, tobacco and other fields of the southern States. Canadian parents, as a rule, are more desirous of giving their children the highest possible education than they are to work them as farm hands and profit-making laborers.

But inasmuch as many of our laws which are designed to protect urban workers and which prohibit child labor are not applicable to agriculture, a greater responsibility is thrown upon parents engaged in agriculture to protect their children and not lose sight of the humanities, the frailties, the limited powers of endurance of young boys and girls, and to remember that their proper physical development and mental outlook on life necessitate hours of play and recreation; that their bodies and minds will be stunted by long hours of work and no play. It is still true that all work and no play makes Jack a dull boy.

This is not to say that farm boys and girls should not be required to assist in the work of the farm, they should. Doing chores is part of their education and preparation for life, and it would be both foolish and wrong to do for them what they should do for themselves, or permit the development of habits of idleness or shirtness. But inasmuch as definite laws for their protection from what may be termed exploitation do not apply in rural as in urban life, it is all the more necessary that rural people guard against selfishness and thoughtlessness on their own part in the matter of overworking children on the farm.

Canada stands high in the matter of child labor. It is a matter of national pride that this is so. We stand high in the matter of education, and our school attendance laws afford the greatest legal protection against the exploitation of child labor, both in city and country. It should be the aim of the Canadian people as individual citizens to raise the standard of child life progressively higher as the years go by, and entirely eliminate the blot of commercialized child labor from this fair Dominion.

Belgium is the most densely populated country in the world, having nearly 8,000,000 residents occupying an area of 11,752 square miles.

NATURE'S MINERAL SALTS
Cleans the system—purifies the blood. Nothing better for relief of Constipation, Indigestion, Rheumatism, Kidney and Liver troubles.
SASKASAL

Classed As Luxuries
Baths and penumbators are to be taxed as luxury articles in Yugoslavia, according to an announcement by the Ministry of Finance. Other articles included in this order are gramophones and records, flowers and sweets.

If you want to be popular it's a good idea to learn the art of remembering what to forget.

Live "Dragons" At Zoo

Habitants Of Dutch East Indies Taken To London

There were live dragons in King George's Silver Jubilee celebrations, but they did not take part in the procession.

There was a pair of them and they were seen for the first time by the public at the zoo. Komodo dragon is their full name, though learned people speak of them as monitor lizards. They came from Komodo Island in the Dutch East Indies, whence they were brought by Lord Moyne, who has been there studying their habits in the wild state. Some of the animals in their native habitat are 12 feet long, and their nearly-related, extinct Australian species grew to 50 feet. And these it is that are supposed to have been the originals of the dragon legends throughout the world.

Seen travelling erect on their four legs—not crawling like the alligator—with their long heads carried aloft and the tips of their long tails sweeping the earth, they are indeed capable of inspiring fright in the primitive mind.

The pair given to the zoo are the most interesting and valuable reptiles in this wonderful collection and some striking photographs of them in their native surroundings accompany the exhibits. They were kept in the zoo sanatorium for a few days so that the keepers might study their habits, and were then put on view for the first time on the King's Jubilee Day.

A Magnificent Statue

Cleaning Revealed Effigy Of Black Prince Is Pure Gold

The Black Prince—or at least his statue—is no longer black. For centuries the statue over his tomb in Canterbury Cathedral has been as black as his name. It was never cleaned.

Then, about a month ago, it was cleaned. Centuries of grime and a coating of protective enamel were delicately removed under the direction of Professor W. W. Tristram.

A most beautifully wrought effigy in pure gold on a foundation of bronze was revealed. It is in almost perfect preservation and is one of the most wonderful examples of fourteenth-century craftsmanship in existence. The tomb was built 560 years ago.

"The most magnificent tomb in England," is Professor Tristram's description.

"We clean the cathedral regularly," the Dean of Canterbury said, "but for some reason, I really don't know why, it never occurred to anybody to clean the Black Prince. Now that we have done so everybody is delighted, and we are having a great many visitors. The tomb is one of the most lovely monuments in the world. Its value is incalculable."

Gasoline Discovered

Unable To Explain Gasoline Reservoir Near Earth's Surface

A huge underground lake of pure gasoline was discovered in the harbor district near Wilmington, California, causing hundreds of persons to stampede to the scene.

Shallow wells, most of them dug to a depth of only two feet, were producing from four to six gallons of gasoline an hour.

The scene, a low area about two blocks square, was dotted with hundreds of gasoline "prospector," some of whom brought hand pumps to speed up production. Motorists filled the tanks of their automobiles and trucks.

Fire account for the gasoline reservoir beneath the earth's surface, said, however, it probably came from a leak many years ago in a pipe line leading from a refinery to a harbor terminal.

More Counterfeiting

Advances Made In Science Makes Danger More Threatening

The United States secret service conceded advances in science have made counterfeiting a more threatening racket than ever before. Statistics prepared by Chief William H. Moran showed there were 999 arrests and 668 convictions for this offense in 1930, while in 1934 there were 2,751 arrests and 1,503 convictions. Officials declared the perfection of photo engraving process has enabled the underworld to turn out illegitimate currency in a much more efficient manner.

Construction of the Canton-Hankow railway in China is progressing so rapidly that the line may be in operation this year.

ALL FOOD MADE HERE
ILL

Caused by Acidity—Corrected by Kruschen

"It is only fair to pass these facts on," writes a nurse. "I was suffering from over-acidity and flatulence to such an extent that I was completely ill. I couldn't take food. When I actually forced myself to take something, I would be wretchedly ill. I have now taken Kruschen for 12 months, and I have no doubt that it has righted my digestive system. I am now quite fit and able to work with vigor again."—Nurse E. S. Indigestion is caused by a failure in the flow of the gastric or digestive juices. As a result, your food, instead of being assimilated by your system, simply collects and ferments inside you, producing harmful acid poisons. The powerful effect of the six mineral salts in Kruschen is to promote the healthy flow of the vital juices of the body. As you continue with the "little daily dose," it ensures the regular and complete elimination of all waste matter every day. And it means a complete end to indigestion.

A Remarkable Personality

British Empire Suffers Great Loss In The Death Of Col. T. E. Lawrence

The death of Col. T. E. Lawrence—or, to be more correct, Col. T. E. Shaw, since evidently he had changed his name by legal process of recent years—robs the British Empire of one of the most colorful figures it has yielded. "Lawrence of Arabia" was more than colorful; he was almost a mythical god. There was even a suggestion of a messianic strain about the man, so remarkable were his powers of leadership and influence.

Lawrence, only 40 at death, and a graduate of Oxford, unquestionably helped to the winning of the World War on its Eastern front. He it was who, by sheer personal influence, quelled friction among the Arabs and roused and marshaled them against the Turks. He helped materially toward Allenby's victories in Palestine. He was a strange combination—scholar, soldier, mystic and diplomat. He was a peculiar yet remarkably effective force projected into a romantic and difficult setting. Lawrence was as unobtrusive as he was effective. He was a poor publicity man so far as self was concerned. Unlike the Pharisees of an earlier day in the life of the East, he sought no greetings in the market place or chief seats in the temple and at feasts.—Regina Leader.

Lac Seul Project

Rising Of Water Causes Damage To C.N.R. Road Bed

Rising of the waters of Lac Seul in northwestern Ontario has caused damage to the road bed of the Canadian National Railway, Hon. Hugh Stewart, minister of public works, told the House of Commons, explaining a vote of \$175,000 in the public works bill for Lac Seul protection works. The lake is being raised under an agreement between the Dominion and the provinces of Ontario and Manitoba in connection with power developments.

The money will be used for rip-rapping along the railway and construction to the cost of the work will be sought from both Ontario and Manitoba.

In Memory Of Livingstone

Statue Of Famous Explorer Erected In South Africa

A famous explorer's memory has been perpetuated by a memorial erected almost at the edge of the Devil's Cataract of the Victoria Falls in South Africa, where their rear is always to be heard and the spray of tumbling waters ever visible. The memorial is in the form of a statue of Dr. David Livingstone, and was unveiled by the Hon. H. U. Moffatt, a former Premier of Southern Rhodesia, and himself a nephew of the famous explorer and missionary. The memorial to the famous Scot and discoverer of the Falls has been provided by the Federation of Caledonia Societies of South Africa.

Economical Air Transport

Aerial Train Can Drop Gliders At Different Points

A Soviet aerial train took off in mail week from Moscow, on an experimental flight and landed four and a half hours later at Kharkov, about 400 miles away. It consisted of one regular aeroplane towing three gliders each manned by a pilot. The idea of such aerial trains is that individual gliders can drop off at different points without the main aeroplane landing, thus providing swift economic air transport.

Russia Making Rubber

Oil Waste And Calcium Used In New Process

New processes for making synthetic rubber out of the waste products of oil refineries and from calcium carbide are being tried out in Russia.

Heads of the Soviet industrial syndicates expect shortly to be manufacturing the product at the rate of 20,000 tons a year.

This will have far-reaching effects on the rubber-growing plantations of the Far East, and will upset considerably the working of the Rubber Restriction Scheme, under which 30 per cent. of the trees are not being tapped so as to force up raw rubber prices.

The first factory for manufacturing rubber from oil waste is now being started in Moscow. The lessons learned there will be applied in the construction of several large plants in the oil well districts.

About 35 pounds of rubber are produced from the waste products obtained from refining a ton of oil. In the past these products in many cases had to be wasted.

The other process, for manufacturing rubber from calcium carbide, is to be operated at Erivan, in Armenia, where a factory is now being constructed. The process is the invention of a number of young Soviet scientists working in Leningrad.

Water is added to the calcium carbide, forming acetylene, the gas of which is often used for lighting. Then, after a series of chemical reactions, a substance called chloroprene is produced and thus ultimately becomes rubber.

The rubber is said to have all the working and wearing qualities of real rubber, and to be very much cheaper.

Best Aid To Sleep

Formula For The Perfect Night-Cap Has Been Evolved

It is generally recognized that the best aid to sleep is warm milk; and that the main use of all night-caps is not as a soporific but as a means of removing from hot milk the unpleasant taste which prevents so many people from drinking it regularly at night. Since tea is the cheapest beverage in the world, and the one that is in every family cupboard, its use in this connection is highly desirable. A formula for the perfect milk night-cap has now been evolved. Tea should be made in the usual way, which means that one teaspoonful of leaf should be allowed for each person and one for the pot. Tea put on only to be filled half way, and when pouring out after the usual four to five minutes infusion, the cups should be only half filled. They should then be filled up with hot milk, but not with boiled milk.

Twenty-two million cups of tea are drunk in Canada every day or over eight billion cups of tea a year. The tea industry is therefore one of the farmer's greatest allies, for investigation has shown that the number of people who drink tea without milk is almost negligible.

Welcome Heavy Rain

Australians Glad To See "Knock 'Em Down" Variety

Darwin, Northern Australia, recently welcomed the annual "knock 'em down" rains.

Although this aboriginal description of the torrential downpours, which herald the end of the wet season, sounds grim, the rains are very welcome throughout the Northern Territory. These heavy downpours towards the end of the monsoon period level the long grass which earlier falls have caused to grow to a height of six to ten feet.

In the three months following Christmas, about 40 inches of rain fell in Darwin, and the grass bordering the roads was so high that a man driving along the road could not see a friend walking along the footpath. In low-lying sections of the city grass grew in a tangled mass ten feet high. That is why "knock 'em down" rains are welcome.

A Great Salesman

The greatest salesman of the Empire is the Prince of Wales! On a hot day, once, according to Lord Dudley, he talked in Rio de Janeiro for more than an hour. As a result, British iron and steel industries received an order for a \$15,000,000 contract. Lord Dudley told the story at a meeting of the Iron and Steel Federation of which he is president.

A blind philanthropist has given \$200,000 for investigations in Scotland on the origin and causes of blindness, working towards prevention and cure.

'Tis Jolly To be Wise!

There is a lot more pleasure in rolling a cigarette with Ogden's Fine Cut—a tobacco you KNOW will pass your own tests for smoothness, coolness and fragrance.

Smart "roll-your-owners" everywhere are "wise" to Ogden's. They'll tell you that Ogden's Fine Cut and "Chanticleer" or "Vogue" papers make the right combination for rolling smooth, satisfying cigarettes.

An Old Organization

First Holstein Society Started In Germany In 1872

Cattle resembling the present-day Holsteins have been bred for centuries along the south shore of the North Sea, from Holland over to Denmark. Some of the early importations into the United States came from the German province of Holstein, just south of Denmark and a breed society of that name was started in 1872. But most of the early importations came from Friesland and the country in Holland bordering on the Zuider Zee and a Dutch-Friesian Association was started in the States in 1878. These two merged in 1885 with the name of the Holstein-Friesian Association of America. Although the most of the foundation stock of the breed came from Friesland the name has stuck, the Holstein-Friesian Association of Canada having been formed in 1921.

New Type Of Tent

Framework Of Airtight Cloth Tubes Has To Be Inflated

A pneumatic tent recently displayed in London must be pumped up. In place of the customary centre pole and guy ropes, the shelter has a framework of airtight cloth tubes that may be blown up with an ordinary motor-car pump when the camping site is reached. When it is erected, the tent is six feet high and seven feet square. Deflated, it fits in a suitcase.

KIDNEY TROUBLE

will result in headaches, backaches, broken sleep, and a tired, listless feeling during the day. At the first indication of any of these symptoms, take Gin Pills for prompt, safe relief.

You'll feel better, look better and sleep sounder.

CRISIS LOOMS AS FRENCH CABINET MEETS DEFEAT

Paris.—The cabinet of Premier Pierre-Etienne Flandin resigned after it had met a decisive defeat in the chamber of deputies on its demand for sweeping powers to deal with unemployment and save the franc.

The adverse vote was 353 to 202. Fernand Boulson, presiding officer of the chamber, immediately attempted to form a new government. M. Boulson is committed to support of the franc.

Defeat of the Flandin administration came after Flandin had risen from a sick-bed to make an impassioned plea for support. A wide split in the Radical Socialist party, bulwark of his government, resulted in the defeat of the six-month-old administration.

A national crisis loomed as the result of the government's defeat, with observers gloomy over further chances of the franc to resist the pressure brought upon it by international speculation in recent weeks.

It was forecast Boulson would attempt to form a national union government.

President Albert Lebrun accepted the resignation of the members of the Flandin cabinet and then called Boulson into conference. Subsequently Edouard Herriot, leader of the Radical Socialists, and Francis Pietri, naval minister for the defeated cabinet, were summoned to the Elysee palace to confer with Lebrun. The vote followed a historic session of the chamber in which Premier Flandin desperately defended the bill, despite a painful broken arm, and former premier Edouard Herriot, chief of the Radical-Socialist party, had made a last stand against overwhelming odds in personal support of the bill.

Bids Constituents Farewell

Lord Tweedsmuir Expresses Thanks For Kind Treatment

London.—Lord Tweedsmuir, who represented the Scottish universities in the House of Commons until his recent appointment as next governor-general of Canada, formally said farewell to his constituents.

"There cannot be many constituencies which treat their members with greater forbearance and kindness, which make fewer demands on his time or which extend him fuller and friendlier confidence," said his message.

"My eight years as their representative have enabled me to learn much about university life in Scotland, but I fear the benefits have been one-sided and that I have given very little in return for what I have received. Now I have to bid them a regretful farewell, I would offer them my most grateful thanks for their manifold kindnesses."

False Advertising

A Heavy Fine Is Provided For Misrepresentation

Ottawa.—A fine of \$200 or six months imprisonment or both, is the penalty imposed for a species of false advertising under an amendment to the criminal code approved by the House of Commons. The provision follows a recommendation of the price spreads commission.

It makes it an offence to include in an advertisement a statement or guarantee of the performance, efficiency or length of life of any product without such statement or guarantee being based upon a proper test.

Letter Mailed Too Late

Ottawa.—The city post office disclosed receipt of a letter postmarked Vancouver and addressed to Col. By, Major Hill Park, name and address were right but the letter should have been mailed at least 99 years ago before Col. John By, who founded Bytown, later Ottawa, and built the Rideau canal, died. Post officials said the postmark was recent. They sent the message to the dead letter office.

Highway Project

Ottawa.—A stretch of nine miles hard surfacing, on the trans-Canada highway between Beaujeu and St. Andrews in Manitoba and grading of the stretch between Beaujeu and Fortage in Prairie has been authorized by the Dominion government with the province and Dominion sharing equally in the estimated \$225,000 cost, as a relief measure.

First Official Crop Report

Conditions In Prairie Provinces As A Whole Are Hopeful

Ottawa.—The Dominion bureau of statistics issued the first of 15 weekly telegraphic crop summaries covering conditions in the prairie provinces, and said crop reports as a whole were "hopeful", although correspondents pointed out "sub soil (moisture) reserves are negligible in many districts and in these areas crop development will depend upon current rainfall."

The summary of the report said: "The seeding and early development of the 1935 wheat crop of the prairie provinces have taken place under vastly different conditions than existed a year ago. During the month of May generous rains were received over the 'drouth' area of Saskatchewan and in parts of central and northern Alberta seeding has been seriously delayed by heavy rains."

"Only a few areas in the three prairie provinces report the need of rain at the present time. Hatching of grasshoppers has been delayed by the cool, wet weather but outbreaks may be expected shortly. Wheat seeding is nearly completed in Manitoba and in many areas in Saskatchewan and the seeding of coarse grains is well advanced. In Alberta, seeding of wheat is almost completed in the southern part of the province, but in the northern areas a great deal of land intended for wheat is not sown as yet."

Tribute To Dr. Cora Hind

Women's Press Club Honors Western Journalist

Ottawa.—Tribute by newspaperwomen of Canada to Dr. E. Cora Hind of the Winnipeg Free Press as "one of the greatest of their cult," was paid by the Canadian Women's Press Club here at a banquet by the government tourist bureau.

Held in the parliamentary restaurant, the function, of which Hon. R. J. Manion, minister of railways, acted as host, was attended by nearly 200 female members of the craft, with a more quietude of males "gracing" the proceedings.

The eulogium on the service rendered to Manitoba a few days ago conferred the honorary degree of doctor of laws, pronounced by Miss Charlotte Whitton, C.B.E. Dr. Manion sketched to his hearers a picture of the tourist bureau's work, paying tribute to Hon. W. H. Dennis of Halifax, who had been directly responsible for its establishment, and Dr. Leo Dolan, who directs its activities. Last year, the minister said, the Canadian people derived more money from the expenditures of tourists than they did from the sale of wheat. The significance of the industry was illustrated, he said, by the fact the state of Maine alone had a revenue of \$100,000,000 annually from tourists.

Storm Causes Heavy Damage

Property Loss Near Sarnia, Ontario, Will Total \$75,000

Sarnia, Ont.—Two persons injured and property damage totalling \$75,000 was the toll of a severe storm which swept over a small area in Sarnia township, eight miles east of here.

Two houses and seven barns were destroyed, roofs torn off other buildings, orchards uprooted. A highway was strewn with trees, telephone poles and wires for about a mile, as a wind of tornado proportions accompanied a severe thunder storm. The storm passed over the city without doing any damage. Worst damage was done in a narrow strip on each side of the provincial highway.

For Shorter Hours

Victoria.—Shorter working hours for postal employees is sought in a resolution passed at the closing session of the British Columbia branch of the Canadian Postmasters' Association here. The resolution, which was forwarded to the national executive, asked for a 44-hour week, with powers for the postmasters to regulate the working schedule according to local conditions.

Few Will Return To Fatherland

Saskatoon.—Few of the Germans here affected by the conscription ruling of the German government will return to the fatherland for military duty, leaders of German organizations said when they reported that many of their compatriots were taking immediate steps to secure Canadian citizenship and thus avoid a year's military training. 2101

Monk Sent To Prison

Heavy Sentence Is Imposed In Nazi Court

Berlin.—A Nazi court meted out the heaviest penalty possible on Otto Goertler, a monk, charged with violation of the foreign exchange laws. Goertler was sentenced to 10 years in the penitentiary, loss of citizenship for an additional five years and was fined 350,000 marks (about \$140,000). If the fine is not paid the monk must serve an additional 27 months in prison.

Shares of the Farben industry, valued at 44,000 marks, will be confiscated from the monastery to which Goertler was attached. The monastery also was fined 500,000 marks.

Celebrates His Birthday

Famous Dr. Dafoe Entertained By Newspapermen Of North Bay

Callander, Ont.—Dr. Allan Roy Dafoe was all but smothered under an avalanche of congratulations as he celebrated his own 52nd birthday and looked back on the happy observance of the Dionne quintuplets' first birthday anniversary.

Newspapermen marked the double event on May 28 by entertaining Dr. Dafoe at dinner in North Bay and presented him with an engraved silver pitcher.

PRICE SPREADS IN CARS SHOWN TO TARIFF BOARD

Calgary.—Large price spreads exist between identical models of automobiles in Alberta and Montana the tariff board learned in a final Calgary session.

Continuing the automobile inquiry, which started at Vancouver, the board members were told that duties made prices of United States cars almost prohibitive in Alberta, and that Canadian automobile manufacturers were competing unfairly in the "parts" business with local jobbers.

J. L. Stewart, general manager of the Canadian Automobile Chamber of Commerce, submitted reports showing that both taxes and freight rates were considerably higher in Alberta than in Montana. On one light model car the government tax in Butte, Montana, was \$18. The tax on the same car in Calgary was \$40.63. On an eight-cylinder model selling for \$1,500 in Butte, the tax there was only \$38.60 compared to \$138.33 in Calgary.

A. L. Smith, K.C., representing a group of Alberta jobbers, asked the board to investigate fully a charge that manufacturers were importing parts from the United States duty free, ostensibly for manufacturing purposes, and were then retailing the parts in competition with jobbers who had paid full duties.

W. H. Poole, of the department of economics at the University of Alberta, who prepared a comparative schedule, reported differences in prices as high as \$310 on stock model cars sold at Selby, Montana, and Lethbridge, Alta.

GEORGE OF GREECE

The possibility of a reconciliation between ex-King George and ex-Queen Elizabeth of Greece is stated to have been discussed in Bukarest between the Greek Foreign Minister and the ex-Queen herself. A reconciliation it is stated, would be a preliminary to an eventual restoration of the monarchy of Greece. Here is a recent picture of the ex-King.

Improvement Shown In Employment Situation

Report Shows Increase In All But Maritime Provinces

Ottawa.—An improvement was shown in the employment situation on May 1 in all provinces; while the Maritime provinces was the only economic area to show a decline in comparison with May 1, 1934, the Dominion bureau of statistics reported.

Reports received from 9,203 firms show \$92,506 at work, a gain of 17,457 compared with the preceding month.

The crude index, higher than any year since 1931, stood at 95.2 against 92.0 on May 1, 1934, and 77.6 in 1933.

In the prairie provinces, 1,339 firms reported 110,815 employed against 109,492 on April 1. Gains were shown in manufacturing, lumbering, iron and steel, and coal mining while logging was seasonably slacker.

Police Patrol Going North

Disappearance Of Trapper Last September To Be Probed

Prince Albert.—A Royal Canadian Mounted Police patrol will leave shortly for Folkestone lake, 300 miles northwest of here, to investigate the mysterious disappearance of Jean Baptiste Lemieux of Montreal. The 25-year-old trapper has been unreported since he left his lake cabin last September.

Lemieux set out for the north country from Edmonton late last summer. With him were Carl Daur and his wife. The trio planned a trapping season in "a sort of partnership." Shortly after they had established a trap-line, north of Fort Belcher lake, 280 miles north of Battleford, Lemieux disappeared.

Daur left the cabin to visit a neighboring trapper. When he returned his young partner was missing.

PRINCE FREDERIK AND HIS BRIDE

Stockholm, Sweden.—Two hundred thousand cheering Swedes packed Stockholm's streets to bid farewell to Crown Prince Frederik of Denmark and Princess Ingrid of Sweden. Frederik's bride and Denmark's future queen. Their brilliant wedding in the 19th Century church where all kings of Sweden's Bernadotte line have been crowned, was attended by such an assembly of crowned heads, royalty and nobles as Scandinavia seldom has seen.

Makes Protest

Hon. H. H. Stevens Objects To Statements Made At Inquiry

Toronto.—Hon. H. H. Stevens, M.P., suddenly appeared before the inquiry into the affairs of the Manufacturers' Finance Corporation, of which he was a former director. He stated he intended to demand a hearing.

Mr. Stevens listened to proceedings without interruption until that part of the report made by Joseph Sedgwick K.C. of the attorney-general's department, was read concerning Mr. Stevens' activities as a director of the bankrupt corporation. Mr. Sedgwick had stated Mr. Stevens had received \$200 as "overseas expenses" from the corporation.

Mr. Stevens jumped to his feet and exclaimed, "No, no." His counsel, Norman Sommerville, K.C., interposed. "That just shows the effect of having this evidence produced without allowing us a chance to prepare. Mr. Stevens did not receive any money to go overseas from the company and did not go overseas for the company. He did not receive a nickel."

Commissioner J. M. Godfrey, K.C., stated following reading of the report he would give Mr. Stevens an opportunity to give his explanation.

Motors Across Channel

German Sportsman Negotiates Crossing In Automobile

Dover, England.—A novel amphibian motor car clambered, dripping wet, on to dry land here and rolled on toward London after crossing the Channel from Calais in eight hours and 20 minutes. The machine was operated by Jacob Boulig, German sportsman.

It was the first such crossing but such a motor car, equipped with paddlewheels is not likely to prove popular, since regular Channel steamers from Dover to Calais make the trip in about an hour.

THIRD READING IN SENATE FOR INSURANCE BILL

Ottawa.—After two Liberal amendments had been voted down, the unemployment insurance bill went to third reading in the senate.

An amendment moved by Senator Raoul Dandurand, Liberal leader, that employees in non-manual labor receiving salaries in excess of \$2,000 also should come under the bill and contribute to the insurance fund was defeated on division by 20 to 12. Hon. James Murdock (Lib., Ottawa) voted with Conservatives; but with this exception, party lines stood solid.

Exception of employees of banks and financial institutions, bringing the measure back to the provision it contained when passed by the commons, was moved by Senator Walter E. Foster (Lib., Saint John) but was lost on a call for "contents" and "non-contents." The former New Brunswick premier—a bank employee—encountered opposition from R. Hon. Arthur Meighen, senate leader; Senator W. A. Buchanan (Lib., Lethbridge); Senator W. A. Giesbach (Cons., Edmonton) and Senator Murdoch.

"My amendment will put the employee receiving a modest salary on a parity with those who receive more than \$2,000 per year," Senator Dandurand stated. Two-thirds of contributors to the insurance fund would not benefit under the act. "I reckon 28 per cent. of those contributors would be the utmost in times of a great crisis who would become unemployed," he declared. It would be unfair for many employees with modest salaries, Senator Dandurand argued, to have to contribute \$15 per year while those earning more than \$2,000 annually would be "free from the element of taxation."

"I am afraid the amendment is only to give the hon. senator a big fellow," Senator Meighen declared. The amendment ignored the intent and purpose of the measure. This was not a tax bill but a measure dealing with unemployment insurance and taxation in the area that would be benefited for that insurance.

The amendment, the senate leader continued, would not reach the rich man. "He (Senator Dandurand) wants to make the fellow earning a salary pay, but the rich fellow who does not have to earn a salary would not have to pay under the amendment."

CODE COLLAPSE CAUSES MUDDLED SITUATION IN U.S.

Washington.—A mounting tabulation of price cuts and wage slashes was maintained at N.R.A. headquarters, while President Roosevelt still felt for the public pulse before deciding what to do about N.R.A.

Mr. Roosevelt went into the muddled situation with Donald Richberg; Secretary of Labor Francis Perkins and members of the National Industrial Recovery board in a two-hour conference which discussed remedies generally but reached no conclusions.

Richberg disclosed the complication of code abandonment, which his aides at N.R.A. were tabulating. The plan is, he said to make this record public, as a specific example of the immediate results flowing from the supreme court's decision that N.R.A.'s code structure was unconstitutional on its face.

The white house kept close check, too, on letters received. Of some 2,000, said Stephen T. Early of the white house secretariat, only three urged final abandonment of N.R.A., with the remainder advocating its continuance in such form as the terms of the court opinion would permit.

At the white house it was said General Hugh S. Johnson, first administrator of N.R.A., was but one of many whom Mr. Roosevelt was consulting on ways and means of retaining the gains and purposes of the blue eagle agency.

Irish Free State Neutrality

Would Not Be Used As A Base For Attack On Britain

Dublin.—President Eamon de Valera assured the dail the government would never permit Irish Free State territory to be used as a base for an attack upon Great Britain by another power.

Referring to an opposition onslaught, De Valera said war in Europe might possibly develop into a very serious situation for the Free State. He said the Free State would do everything in its power to defend its own territory.

The president said the government was prepared to draw up an agreement with Britain and to purchase from her, pound for pound. It was even prepared to give her a preference when the Free State had to buy goods outside the country.

Expect Good Crop

Soviet Union Committee Look For Record Production

Moscow.—High hopes for a record wheat crop were announced by the Soviet union committee on harvests, which said the spring planting program was far ahead of last year and that farmers were flocking to the collective farms.

Planting of wheat up to recently amounted to 215,000 acres, 95.5 per cent. of the total program, or 14,826,000 more than on the same date last year.

Doukhobors Sentenced

Nelson, B.C.—All but three of eight Sons of Freedom Doukhobors tried on parts on a charge of failing to send their children to school and sentenced to five and 10-day terms, have been arrested and have served their terms. Their case was tried by Stipendiary Magistrate John Cartmel in their absence when they failed to answer summons.

Misleading Statements

Ottawa.—Making untrue or misleading statements to obtain a passport or visa is made an offence under the criminal code by an amendment approved in the House of Commons. The new law is a punishment for two years or a fine of \$500 or both.

Federal Loans

Ottawa.—Further loans from the federal treasury to Alberta and British Columbia, at a total of \$2,250,000 for various relief purposes were announced by Finance Minister H. H. Rhodes. British Columbia gets \$1,600,000 and Alberta \$750,000.

Reduction In Interest

Winnipeg.—Premier John Bracken announced that interest on mortgages and agreements for sale held by the Manitoba Farm Loans Association would be reduced from six and seven per cent. to five per cent.

The marriage of Adeleine Georgian, second daughter of Mr. and Mrs. Dominic Cyr, of Pincher Creek, to Gerald H. Robbins, eldest son of Mr. and Mrs. F. H. Robbins, of Pincher Station, took place in Calgary on Monday morning. They will take up residence in Pincher Creek.

One cannot remain in the United States very many months before he is strictly required to become a naturalized citizen or get out. Had such a policy been in vogue in Canada, there would have been a whole lot less to worry about during recent years, and particularly at the present time. Now, applications by the thousands for naturalization are being submitted for consideration, and in most cases, where it is found that the applicants have made their homes in Canada for years and invested their surplus earnings in other countries, where no doubt their greatest interest laid, their humble requests to become British subjects are being seriously considered.

Anger is a Poison

and very often caused by poisons from your food. If you find yourself angry often for slight cause, look to your food.

MOTHER'S BREAD

Is the great harmonizer. Instead of fighting with other foods, it gently soothes and promotes digestion. It's all food.
